

SOLAR SLATE PLATE

Solar Slate Plate Data Sheet

Solar on slate made easy

Quick and simple solar installations using Solar Slate Plate. No cutting. No sealants. No leaks.

Manufactured using high quality materials, with the polycarbonate plate's working temperature of -40°C to 130°C .

With no need to cut any slates, health and safety risks are reduced.

Cost saving due to reduced installation times with no need to purchase replacement slates.

No excess pieces of slates to dispose of means for a clean installation.

No need to use mastics or sealants to provide weather proofing.

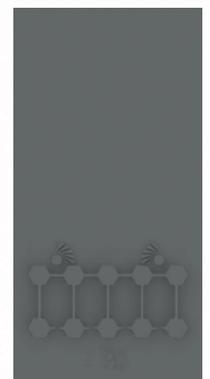

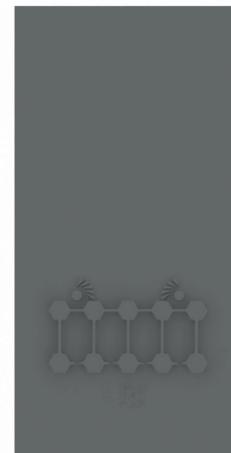

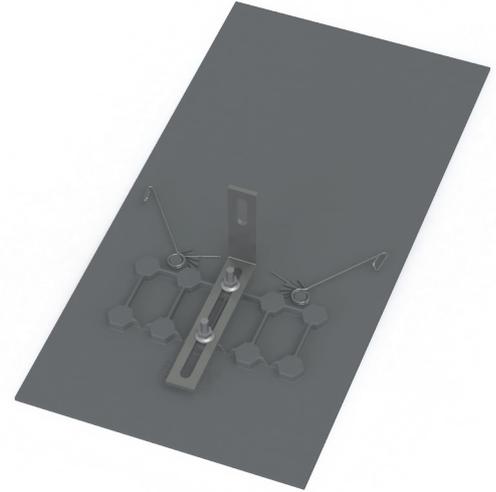

Choice of 2 universal roof hooks for different rail types, meaning the right tool will be available for the job at hand.

No need to carry bags of tools onto the scaffolding.

Includes full 10 year product guarantee.

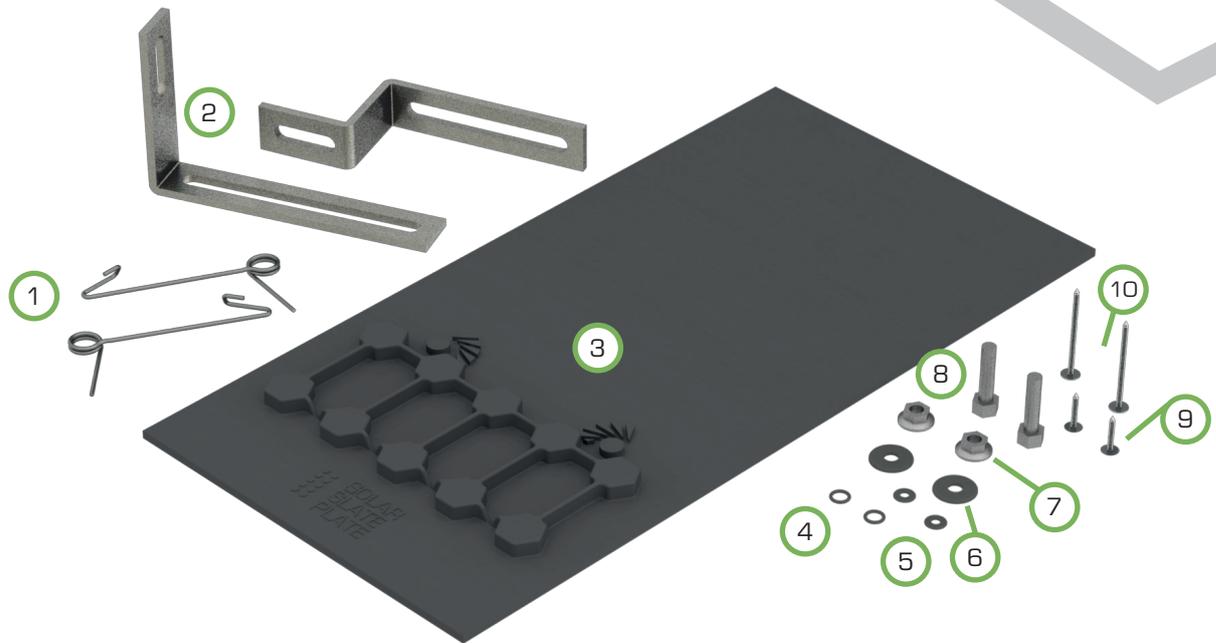

Issue 24 March 2016 Patented Design (GB2511223)
