

Link Cellular.

FOR LOGIC AIR

Remote monitoring solution - **managing your heating stock** has never been easier.

Link Cellular for Logic Air.

Link Cellular Heat Pump will connect, via the Link Pro app, through a cellular or Wi-Fi connection, to the secure Ideal Heating Cloud.

Once connected to the Ideal Heating Cloud, this module will communicate diagnostic and telemetry heat pump data to Ideal Heating and the housing provider to assist with service, maintenance and fault diagnosis.

KEY FEATURES

Interact with the heat pump remotely by changing the heat curve or adjusting set temperatures.

Have confidence you're only sending an engineer to site when absolutely necessary, with the ability to read fault codes and check system performance remotely.

Get ahead on your services with notifications for heat pump services and the ability to schedule the anti-legionella cycle to be completed ahead of an engineer visit.

Ensure your properties are heated efficiently with the ability to control the heat pumps optimised start/stop function.

Link Cellular for Heat Pumps

UIN		235545	
EAN		5022142355454	
Dimensions		Unpacked	Packed
	Height (mm)	85	143
	Width (mm)	130	203
	Depth (mm)	21	53
	Weight (kg)	0.28	0.40
Link Diagnostics Module		Supply Voltage Or Voltage Range	24Vdc
		Power Or Current Rating	200mA
Link Bracket		Mains Supply Voltage	230 Vac 50Hz, 3 (1) Amp
		Optional Adapter Supply Voltage	24Vdc
		Power Consumption (W)	5
Communication Protocol		BSB	
Operating Conditions		Indoor use only, 0-40°C
