NEW

FixGrid Pro East-West

FixGrid Pro South

FixGrid Pro

- ▶ Ballast optimization and reduction through improved aerodynamics
- ▶ Planning and assembly flexible and time-saving
- ▶ Facilitated assembly and wiring of the modules
- ▶ Compatible with ProLine series module clamps
- ▶ Extensive assembly variants can be realized with just a few components
- ▶ Module support Pro allows flexible adjustment to the desired angle of inclination
- ▶ Toolless mounting of the Pro elevation profiles
- ▶ Modules can be mounted crosswise and upright
- ▶ Module clamping can be done on the short or long module frame side

ProLine – Roof hooks

- ▶ ProLine roof hook extensions "Max" provide improved adjustability and stability
- ▶ Higher load capacity due to new profile geometries
- ▶ Fastening with only one wood screw - the Torx T40
- ▶ Ribbing further secures the roof hook
- ▶ Fast and flexible mounting by click-in
- ▶ No pressure on the roof tile
- ▶ Due to the new multi-adapter with Torx T40, all Schletter roof hooks can be installed with the classic Schletter profiles as well as the new ProLine profiles

ProLine – Module clamps

- ▶ Middle and end clamps for mounting module frames between 30 - 47 mm
- ▶ Mounting with Torx T40
- ▶ Completely pre-assembled for quick installation
- ▶ Built-in grounding function
- ▶ Available in bright and black anodized aluminum
- ▶ Optimized packaging units
- ▶ Compatible with all ProLine series profiles

Line

Pro

ProLine – Module bearing rails

- ▶ Aluminum EN AW-6063 T66
- ▶ Reduced material with improved stability
- ▶ Standard profile lengths: 3300 mm, 4400 mm, 5500 mm, 6000 mm
- ▶ Compatible with modular clamps and crossbar connectors of the ProLine series

ProLine – ClampFit Pro and SingleFix

- ▶ For mounting on trapezoidal sheet metal roofs
- ▶ ClampFit Pro: Flexible adjustment options thanks to joint axis
- ▶ ClampFit Pro: Compatible with ProLine module clamps
- ▶ SingleFix: Compatible with the ProLine series and classic Schletter solar mounting system

Line

ProLine – Seam clamps

- ▶ For mounting on standing seam roofs
- ▶ Fast and direct fastening
- ▶ For a wide range of sheet metal seam roofs
- ▶ Compatible with modular clamps and crossbar connectors of the ProLine series

ProLine – Accessories

- ▶ ProConnector - tool-free, self-locking slide-in connector
- ▶ RapidPro L Adapter with Torx T40 can be installed with either ProLine rails or classic Schletter rails
- ▶ RapidCon90 cross-connector can be installed on top with either ProLine rails or classic Schletter rails to all rails of the ProLine series
- ▶ RapidPro cross-connector with Torx T40 can be installed with ProLine rails to all classic Schletter rails

Schletter employees will gladly assist you with comprehensive and expert advice on planning your system, as well as guide you through any logistical or order processing queries you might have.
