

# Efficiency Curve

## 1. Introduction

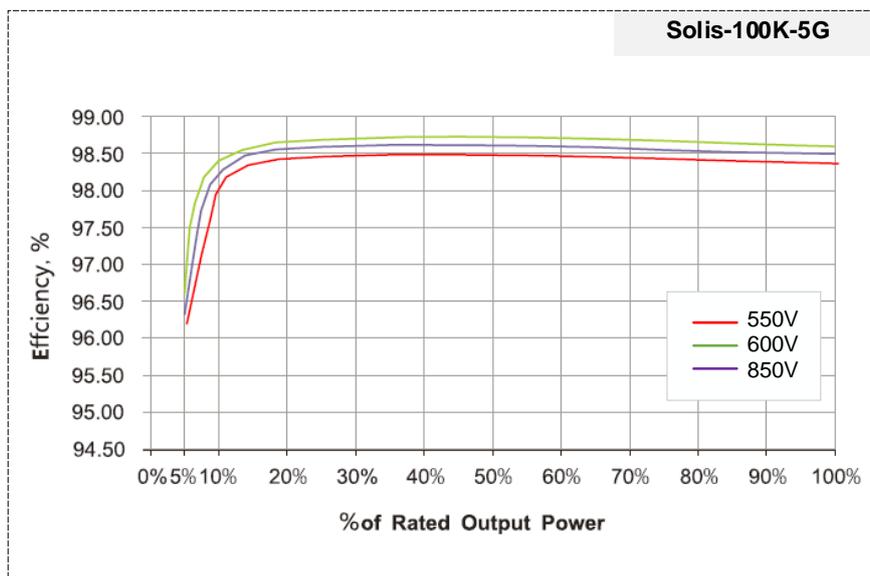

This document describes in graphic and tabular form the efficiency profile of Solis Solar inverter models as below:

- Solis-100K-5G
- Solis-110K-5G
- Solis-125K-HV-5G

The efficiency is given for the minimum MPPT voltage, the rated input voltage and the maximum MPPT voltage.

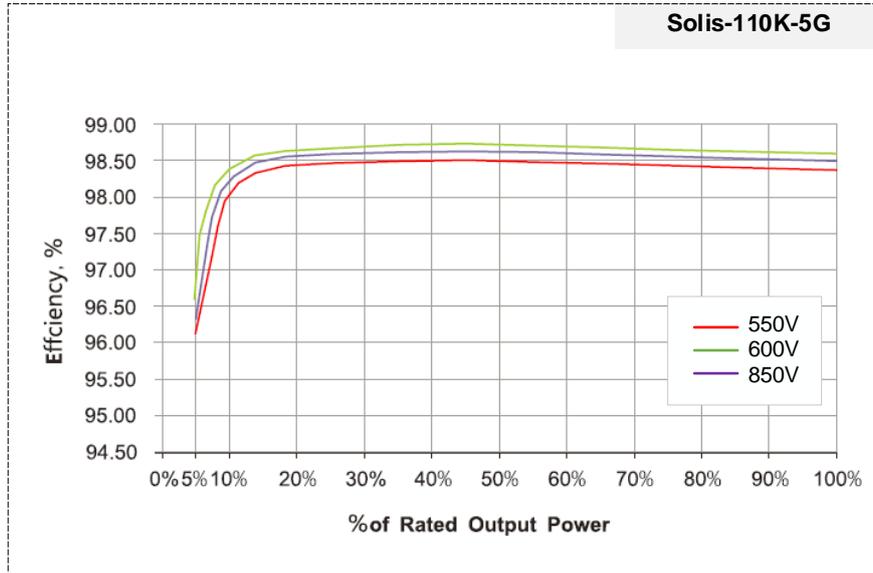

## 2. Efficiency Curve

### 2.1 Solis-100K-5G

Maximum efficiency, $\eta_{max}$	98.7%
European efficiency, $\eta_{EU}$	98.3%

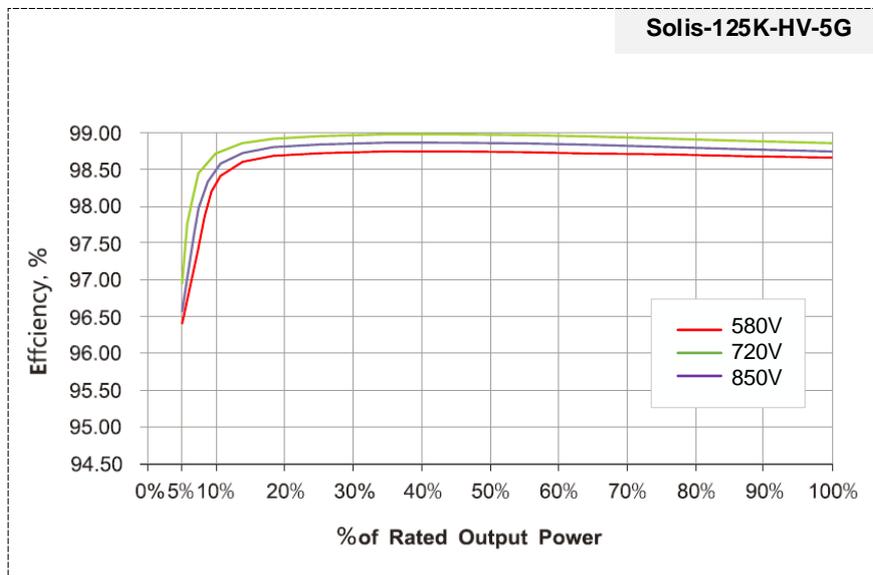

## 2.2 Solis-110K-5G

Maximum efficiency, $\eta_{max}$	98.7%
----------------------------------	-------

European efficiency, $\eta_{EU}$	98.3%
----------------------------------	-------

## 2.3 Solis-125K-HV-5G

Maximum efficiency, $\eta_{max}$	99.0%
----------------------------------	-------

European efficiency, $\eta_{EU}$	98.5%
----------------------------------	-------
